

The ultimate all-in-one. Turbocharged.

New processor architecture.

The Intel Core i3, i5, and i7 processors feature an advanced architecture and set new benchmarks for iMac performance.

More powerful graphics.

Advanced discrete graphics processors now come standard in every iMac — perfect for games, photos, and 3D applications.

Big LED-backlit displays.

iMac features a bright 21.5-inch or 27-inch LED-backlit display with a widescreen 16:9 aspect ratio that's ideal for HD video.

Two ways to Multi-Touch.

Click, swipe, scroll, and perform other gestures to control your iMac using Magic Mouse or the new Magic Trackpad.

Apple Accessories...

Apple Magic Mouse

The same Multi-Touch technology first introduced on the revolutionary iPhone comes to the mouse. It's called Magic Mouse, and it's the world's first Multi-Touch mouse. Click anywhere, scroll in any direction, and swipe through images on its smooth, seamless top shell. It works wirelessly using Bluetooth, so you don't have to worry about cables or adapters cluttering your workspace. And built-in software lets you configure Magic Mouse any way you want.

only 2,390 B.

Apple Wireless Keyboard

Ultrathin and completely cable-free, the compact Apple Wireless Keyboard uses Bluetooth technology to connect with your Mac. The ultracompact design takes up less desktop space and allows you to mouse more comfortably next to the keyboard.

only 2,390 B.

Magic Trackpad

The new Magic Trackpad is the first Multi-Touch trackpad designed to work with your Mac desktop computer. It uses the same Multi-Touch technology you love on the MacBook Pro. And it supports a full set of gestures, giving you a whole new way to control and interact with what's on your screen. Swiping through pages online feels just like flipping through pages in a book or magazine. And inertial scrolling makes moving up and down a page more natural than ever. Magic Trackpad connects to your Mac via Bluetooth wireless technology. Use it in place of a mouse or in conjunction with one.

only 2,390 B.

AirPort Extreme Base Station

The sleek, easy-to-use AirPort Extreme Base Station with simultaneous dual-band support is the perfect wireless access point for home, school or small business. It offers fast, 802.11n Wi-Fi access for Mac computers, PCs and Wi-Fi devices such as iPhone, iPod touch and Apple TV.

Only 6,290 B.

Mini DisplayPort to VGA Adapter

The Mini DisplayPort to VGA Adapter lets you connect a standard analog monitor, projector, or LCD that uses a VGA connector or cable to a Mac with a Mini DisplayPort.

Only 1,000 B.

Mini DisplayPort to DVI Adapter

The Mini DisplayPort to DVI Adapter lets you connect an advanced digital monitor, such as the 20- or 23-inch Apple Cinema Display, to a Mac with a Mini DisplayPort.

Only 1,000 B.
