Apple Accessories...

Apple Magic Mouse

The same Multi-Touch technology first introduced on the revolutionary iPhone comes to the mouse. It's called Magic Mouse, and it's the world's first Multi-Touch mouse. Click anywhere, scroll in any direction, and swipe through images on its smooth, seamless top shell. It works wirelessly using Bluetooth, so you don't have to worry about cables or adapters cluttering your workspace. And built-in software lets you configure Magic Mouse any way you want.

Magic Trackpad

The new Magic Trackpad is the first Multi-Touch trackpad designed to work with your Mac desktop computer. It uses the same Multi-Touch technology you love on the MacBook Pro. And it supports a full set of gestures, giving you a whole new way to control and interact with what's on your screen. Swiping through pages online feels just like flipping through pages in a book or magazine. And inertial scrolling makes moving up and down a page more natural than ever. Magic Trackpad connects to your Mac via Bluetooth wireless technology. Use it in place of a mouse or in conjunction with one.
